Re: General Sports Turf

Within the past year, General Sports Turf has put in two athletic fields here at East Kentwood High School. Our football field was put in the summer of 2004 and the soccer field was put in the fall of 2004. Both fields have been in use during this past school year.

The quality of the General Sports Turf product is excellent. Our coaches and athletes are very pleased with how it feels like a natural field. There have been no major issues that needed to be addressed since installation. Any time we did have a concern, General Sports Turf was quick to respond and answer any questions.

We highly recommend the turf from General Sports Turf. If you would like to see the turf or talk to us personally, please do not hesitate to contact us.
